KEY PROJECTS

Hero.IO

Live Demo

A responsive React application for exploring, discovering, and viewing details of various applications.

- Developed reusable React components to create a structured and maintainable UI.
- Implemented interactive features and responsive layouts for seamless browsing across devices.
- Designed a user-friendly interface to enhance app discovery and navigation.

Customer Support Ticket System

Live Demo

Interactive dashboard for customer query resolution and administrative support.

- Built dynamic UI components using JavaScript and React for seamless state management.
- Implemented real-time data rendering for efficiently displaying support ticket statuses.
- Integrated structured debugging to resolve component rendering issues and improve performance.

BPL Cricket Team

Live Demo

A modern, responsive web application designed to deliver a seamless and user-friendly experience.

- Developed a responsive web application showcasing the Bangladesh national cricket team.
- Implemented dynamic UI components to present team information and player details.
- Designed a clean, user-friendly interface with a focus on usability and responsive layouts.

Payoo-Mobile-App

Live Demo

- Developed a mobile banking web application with an interactive user interface.
- Implemented balance management and transaction-related functionalities using JavaScript.
- Designed a responsive layout for a smooth and user-friendly experience.
